

Springer and Atlantis Press Book Partnership

Welcome!

Springer, together with Atlantis Press, is delighted to let you know that your title will be included in our exclusive book partnership. Since the start of 2011, Springer has handled Production, Distribution and Marketing of all Atlantis Press print publications, and all titles published by Atlantis Press are included in Springer's renowned eBook collection, available at libraries worldwide. With researchers and readers increasingly choosing eBooks – for their accessibility, functionality, and cost-effectiveness – the stage is set for enormous worldwide growth. As a global leader in scientific publishing, with great access to academic libraries, Springer's partnership with Atlantis Press places your work in hundreds of leading institutional libraries around the world.

What does this mean?

In a nutshell, this means:

- ▶ Dramatically broader access to your work
- ▶ Availability on Springer's integrated content platform, **springerlink.com** which attracts more than 1.6 million individual visits every day and experienced nearly 70 million chapter downloads in 2011
- ▶ Your content will be fully indexed and searchable through Springer's powerful search tools. Moreover, Springer works closely with Google™ ensuring that metadata translates efficiently to search results
- ▶ Accessibility via the newly launched SpringerLink App available in the iTunes store, with iPhone and mobile users alone making over 11,000 visits a day to SpringerLink
- ▶ Print distribution through Springer's Print to Order (PTO) facility, which fulfills orders without the necessity of keeping publications in stock. Environmentally friendly PTO production helps extend the useful life of your publications
- ▶ Participation in the innovative MyCopy program which allows many readers with licensed access to one of Springer's eBook packages to buy a print softcover copy of any book included in the package for only \$24.95 / €24,95 including shipping and handling

Marketing and Promotion

You can visit your title's Atlantis Press-branded product page on **springer.com**, where you can also track the download data of your eBook chapters from the past 7, 30 and 90 days. Your eBook will also be announced in Springer's New Book Alert eNewsletters that keep thousands of readers and librarians informed on a monthly basis. Springer also promotes the Atlantis Press titles and partnership at relevant conferences and exhibits globally – and can sometimes organize author events such as book signings.

You can still count on the personal service, fast publication times and optimal worldwide distribution you've come to expect as an Atlantis Press author, but you are of course also welcome to participate in a full spectrum of services Springer offers its own unique authors and readers, including marketing and promotional activities, discounts and innovative eProducts. Please see the reverse of this document for more details.

We at Springer are delighted to be partnering with Atlantis Press and believe that this partnership offers new and exciting opportunities for both readers and authors. We hope that you will also share in this.
