**Abstract.** Xi Jinping's socialist thought with Chinese characteristics in the new era is the era's navigator of the innovative development of the party and the country. It is a major strategic theory in which the party and the country innovates social development in the new era and promotes China's modernization process. To study this idea, we need to seriously consider the overall integrity of this idea in terms of leadership, intrinsic qualities, practical basis, and gradually deepen the study of Xi Jinping's new era of socialist thinking with Chinese characteristics.

**Keywords:** *Xi Jinping's thought of socialism with Chinese characteristics in the new era, the great rejuvenation of the Chinese nation, cognitive thinking*

## 1. Introduction

The 19th National Congress of the Communist Party of China has profoundly summarized the development of China in the past five years, and has made great achievements but there are still inconsistencies and discord. General Secretary Xi Jinping pointed out that the theory and practice of socialism with Chinese characteristics have continued to improve, and socialism with Chinese characteristics has entered a new era of modernization. The new era requires new ideas and new theories to guide the development of socialist construction. At present, it is necessary to put Xi Jinping's thoughts on socialism with Chinese characteristics into mind, translate the theory into practice, clarify the thinking, and provide important theoretical guidance and action guide for the development and construction of the party and country in the new era.

## 2. Leadership: Unwavering Leadership of the Communist Party of China

The Communist Party of China is the core of strong leadership for the cause of socialism with Chinese characteristics. Adhering to the leadership of the Chinese Communist Party gives us our greatest political advantage. From the birth of the Communist Party in 1921 to the modern era of socialist modernization with Chinese characteristics, the Communist Party of China has always followed the mass line and adhered to the fundamental purpose of serving the people wholeheartedly. This is the primary criterion for adhering to party leadership in the new era. The interests of the people are above all else, and the Chinese Communist Party has no other private interests except the interests of the people.

The Chinese Communist Party is not only able to lead the entire people to a great social revolution, but also good at advancing a great self-revolution. Comrade Mao Zedong once pointed out: "Criticism must be sharp fear of offending people is nothing more than loss of election votes, and fear of not getting along well at work. If you don't vote for me, I can't eat anything? Without that matter " The 19th National Congress of the Communist Party of China was successfully convened. Socialism with Chinese characteristics has entered a new era, and the party's construction is facing arduous tasks. The general requirements for the top-level design and strategic deployment of the party's construction are that the party in the new era must manage the party, strictly govern the party, and adhere to the party's comprehensiveness. And necessary links for advanced construction. At the same time, the party's leadership must always put the fundamental interests of the people first, insist on leading the development of the times, be good at self-criticism and self-revolution, and be used to bear the test of the times and maintain youthful vitality. In the new era of leading the socialist modernization drive with Chinese characteristics, we will continue to

push forward the strict administration of the party in an all-round way and continuously improve the party's leadership.

### 3. Intrinsic Traits: “Three Confidence” to “Four Confidence”

Since the 18th National Congress of the Communist Party of China, the Communist Party of China has based on China's current national conditions and proceeded from the actual situation of China and the actual needs of the people. Guidelines for governing the country. The Party Central Committee with Xi Jinping as General Secretary does not forget its original intention, and on the premise of the in-depth development of the "Three Confidences", it enriches and enriches the profound connotation of socialism with Chinese characteristics, and creatively expands the theoretical results of the "Three Confidences" into "Four "Self-confidence" and increased cultural self-confidence underline General Secretary Xi Jinping's strong expectations for cultural construction in the new era, and it indicates that the party has a clearer and broader cultural support for the overall construction of socialism with Chinese characteristics.

The continuous development and progress of China's socialist modernization requires the guidance of the socialist road with Chinese characteristics; the Communist Party of China always maintains the steadfastness of socialism and needs the realistic guidance of the theoretical system of socialism with Chinese characteristics; the formation of the development theory of socialism with Chinese characteristics; Long-term peace and stability requires the socialist system with Chinese characteristics as the fundamental guarantee; at the same time, the people of the whole country are united to build a well-off society in an all-round way, and then realize the great Chinese dream, which requires the socialist culture with Chinese characteristics to provide spiritual strength. Road self-confidence, theoretical self-confidence, system self-confidence, and cultural self-confidence are the inherent characteristics of the Chinese Communists.

### 4. Practical Basis: The Great Practice of Socialism with Chinese Characteristics in the New Era

Practice is the source and motivation of knowledge. The dialectical development view of practice and knowledge is one of the important theoretical sources for Xi Jinping's new era of socialist thought with Chinese characteristics. Since the 19th CPC National Congress, the CPC Central Committee has attached great importance to combining theory with practice. Looking back at the construction process from the 18th to the 19th National Congress, General Secretary Xi pointed out that economic and social development during the "13th Five-Year Plan" period requires innovative theoretical guidance. At the same time, new developments can promote the improvement of innovation theory.

The great achievements of reform and opening up provided a solid material foundation for the establishment of Xi Jinping's socialist ideas with Chinese characteristics in the new era. From 1978 to 2018, the 40-year road of reform and opening up has proved that reform and opening up is China's second revolution, and has provided a source of power for the development of China's socialist modernization. Strengthen economic and political ties with countries around the world, actively meet the challenges of globalization, and continuously accelerate the pace of China's modernization.

### 5. Conclusion

The proposition of this idea inherited and developed the Chinese Communist Party's ruling concept, and focused on systematically arranging and coordinating the issues of what era of socialism with Chinese characteristics and how to adhere to and develop socialism with Chinese characteristics in the new era. [1] The Chinese Communist Party is not only able to lead the entire people to a great social revolution, but also good at advancing a great self-revolution. [2] In the

areas of expanding the road, innovating theories, perfecting the system, and developing culture, we have consistently made concerted efforts. Special emphasis is placed on "cultural self-confidence is a more basic, deeper, and lasting power in the development of a country and a nation." [3]
