ABSTRACT

Universities are the main bases for the growth and development of university students, Under the new situation, we must focus on the fundamental task of "cultivating people with moral integrity", take ideological and political work as a key task, construct a comprehensive, all-round and whole-process ideological and political education system, and make ideological and political education work run through the whole process of education and teaching. This paper analyzes how to strengthen and improve the ideological and political work in universities under the new situation, and puts forward four effective ways.

Keywords: universities, ideological and political, research

1. INTRODUCTION

The significance and guiding ideology of strengthening and improving ideological and political work in universities. Fully aware of the importance of strengthening and improving ideological and political work in universities. Universities shoulder the important mission of personnel training, scientific research, social services, cultural inheritance and innovation, and international exchanges and cooperation, and are important fronts for consolidating the guiding position of Marxism and developing socialist ideology [1].The ideological and political work in schools is related to the fundamental problems of what kind of people to cultivate, how to cultivate people and for whom, and it is a major political task and strategic project [2].Facing the new situation and requirements, to fully understand the national and the province by a whole school ideological and political work conference the significance of the thought and action unity to the central and provincial party committee's decision to deploy, cohesion strength and wisdom to implement the meeting proposed various tasks, to further strengthen and improve the ideological and political work in universities, the implementation of moral education fundamental task, for the strong political guarantee, ideological guarantee and spiritual motivation, culture motivation [3].

Strengthening and improving the guiding ideology of ideological and political work in universitiesHolding the great banner of socialism with Chinese characteristics, conscientiously studying and implementing General Secretary Xi Jinping's Thought on Socialism with Chinese Characteristics for a New Era, fully implement the guiding principles of the National and provincial conferences on Ideological and Political Work, and fully implement the Party's educational policy [4].Adhere to the socialist

direction of running schools, take moral education as the fundamental, take education of ideals and beliefs as the core, take socialist core values as the guidance, and give full play to the political core role of school Party organizations as the guarantee [5].We should have a firm sense of politics, the overall situation, the core, and keeping abreast with The Times. We should educate all personnel in an all-round way throughout the whole process, build a great ideological and political structure, improve our ideological and political work in an all-round way, and train high-quality application-oriented talents who are red and professional, have both integrity and talent, and are well-developed.

2. MAIN METHODS

2.1. Strengthen Ideological and Theoretical Education, Enhance the Guidance of Core Values

2.1.1. Strengthen the education of ideals and beliefs.

To conscientiously organize the central group study of the Party Committee, improve the political position and political consciousness, and make the central group study an important platform for the party committee group to study and implement the decisions and arrangements of the Central Committee, unify the ideological understanding, improve the theoretical level, and promote the formation of work ideas. We will provide special training for part-time Party officials. We will strengthen

the education of the ideals and beliefs of the teaching and administrative staff, improve the political theory learning system of the teaching and administrative staff, and guide them to strengthen their ideological, theoretical and emotional identification with Socialism with Chinese characteristics. To strengthen the political guidance and value guidance for college students, carry out various forms of thematic education, continue to strengthen the training of young Marxists, and ideological and political theory course classroom teaching link, carefully designed and coordinated implementation of young Marxists training project; Correctly guide college students to combine the Chinese dream with the realization of the youth dream and realize the ideal of life with practical actions.

2.1.2. Cultivate and practice core socialist values

The party committee of the university and the League committee of the university should pass social practice, go to the countryside three times and so on, organize teachers and students to walk into patriotism education base and social basic level actively, help teachers and students to enhance national consciousness, consciousness of the rule of law, social responsibility consciousness. The students' affairs division shall be in combination with the comprehensive quality education of students, strengthen the education of national unity and progress, national security and scientific spirit. Focusing on the construction of academic atmosphere, integrity education should be carried out closely related to the construction of academic atmosphere, evaluation and examination, job hunting and employment, merit evaluation and award, academic exchanges, and graduation. Enhancing moral education, commending advanced collectives and outstanding individuals, vigorously publicizing their deeds, guiding teachers and students to see the wise and think alike, and enhance their moral quality. We should strengthen the guidance and support for the construction of college students' theoretical lecture groups. We will continue to build civilized campuses, and further carry out activities and ceremonies to promote civilized campuses.

2.1.3. Giving full play to the educational function of university culture

We will strengthen education in fine traditional Chinese culture, revolutionary culture and advanced socialist culture, and build a spiritual home for good teachers and students. We will promote the introduction of fine traditional Chinese culture into classrooms, actively integrate Chinese fine traditional culture and traditional virtue education into daily education management, and take advantage of traditional festivals to carry out activities such as classic recitation and knowledge contest; In combination with the geographical advantages of the

school and the history and culture of Lvshun, various forms of educational practice activities are carried out to enhance college students' confidence and recognition of Chinese culture. We will deepen the study and education of the history of the Communist Party of China, the history of the People's Republic of China, the history of reform and opening up, and the history of socialism, and strengthen the education of revolutionary culture and advanced socialist culture in ideological and political theory courses. We should make full use of major festivals and activities, organize and carry out themed education, and vigorously promote the national spirit centered on patriotism and the spirit of The Times centered on reform and innovation. We will further enrich the school philosophy, concisely deepen the spiritual and cultural connotation, improve the level of institutional culture, environmental culture, and behavioral culture, and educate students with culture.

2.2. Strengthen the Construction of Ideological and Political Theory Courses

2.2.1. Strengthen the leadership of ideological and political theory course construction

Establishing the working mechanism of the leading group for the construction of ideological and political theory course, strengthening the organization and leadership of the course construction, teaching reform and team construction of ideological and political theory course; Party and mass work department, student work department, School Youth League Committee, Ideological and Political Affairs Department, all party branches are mainly in charge of comrades to give students at least one ideological and political theory course or situation policy course every semester; We will implement the requirements for leading cadres to listen to ideological and political theory courses and strengthen the management of ideological and political theory courses.

2.2.2. Innovative ideological and political theory teaching

We will implement the innovation plan for the construction of ideological and political theory courses in colleges and universities, and incorporate the spirit of the 19th CPC National Congress and General Secretary Xi Jinping's Thought on Socialism with Chinese Characteristics for a New Era into the curriculum of ideological and political theory courses. We should strictly implement the construction standard of ideological and political theory course, rationally set the teaching scale, and give full play to the role of the main channel of classroom teaching. Carry out innovative research on the teaching methods of ideological and political theory course, promote thematic teaching, case teaching and situational

teaching, etc., and increase the content of speculative practical teaching; Promote the extension of ideological and political theory course to the second classroom and guide students in practice. Improve the collective lesson preparation system, organize excellent courseware selection, open lesson observation and so on, improve the teaching quality; Standardize and strengthen practice teaching, establish a number of relatively stable practice teaching base, implement the curriculum practice teaching funds.

2.2.3. Strengthen the construction of teachers for ideological and political theory courses

We will improve the system for the allocation, evaluation and employment of part-time teachers for ideological and political theory courses, optimize the training plan for the ideological and political theory course teachers, gradually realize the establishment of full-time ideological and political theory course teachers in accordance with the national requirements, increase efforts to cultivate and introduce outstanding talents, and strengthen the assessment of teachers' responsibilities. We will ensure the training expenses for teachers' academic exchanges, practical research and training.

2.2.4. Standardize the system of textbook selection

Standardize the management and review of the selection of teaching materials and lecture notes for ideological and political theory courses, and constantly improve the quality of teaching materials and lecture notes; To improve the construction and management system of teaching materials, improve the selection standards and procedures, the unified use of marxism theoretical research and construction project key teaching materials, other curriculum materials priority in the selection of the catalogue published by the state; Regular review of the use of teaching materials.

We shall play the role of main channel of classroom teaching, promote the teaching innovation of course system and education, specification to carry out all kinds of humanistic quality teaching, form good classroom teaching order, and make all kinds of courses and ideological and political theory course form synergies,

fully exploiting and using the professional courses of ideological and political education resources, the basic reason of we, the requirements of socialist core values, realize national rejuvenation dream and responsibility into all kinds of teaching, and the ideological and political work through the education teaching process. Further we should improve the classroom teaching quality evaluation system, highlight the evaluation and evaluation of the ideological and political education content in teachers' teaching, and improve the evaluation, standardization and guidance mechanism of the ideological and political education content in teachers' teaching plan design. We should improve the classroom teaching management system, strengthen the teaching discipline, adhere to the classroom teaching discipline, public speech in accordance with the rules; Strictly implementing the system of teaching assessment, teaching materials use and teaching process supervision, play the supervision role of supervisors, peers and students, implement the system of leading cadres and supervisors to attend lectures, regularly publicize the implementation of lectures, and timely find and solve problems in the teaching process.

2.3.2. Strengthen the standardized management of various ideological and cultural fronts on campus

We will implement the system of ideological responsibility for work, and strictly implement the management systems of classroom teaching, lectures, seminars, lectures, forums, reading parties, and academic salons in accordance with the principle of "whoever is in charge is in charge; We will implement regulations on the administration of publicity media and improve the examination and approval and supervision systems for on-campus broadcasting and new media. We will strengthen management of campus network security and ensure campus network security; We will implement an online public opinion collection, review, and feedback system, provide guidance to online public opinion for major events, hot issues, and emergencies, and promptly find and dispose of undesirable information online, so as to create a clean and upright online environment; We will adhere to the principle of separating education from religion, strictly prohibit the spread of religion and the development of believers in schools, and resolutely resist the infiltration of religions from abroad.

2.4. Strengthen teachers' ideological and political work and build up their specialized forces

2.4.1. Strengthen teachers' ideological and political work

With the goal of cultivating good teachers with "ideal and belief, moral sentiment, solid knowledge and benevolent heart", we will make overall plans for teachers' ideological education and management services. Strengthen the construction of teachers' moral style, and put the requirements of teachers' moral style through the whole process of teachers' daily education, teaching and scientific research; We will improve measures to improve teachers' ethics, clarify teachers' professional ethics and codes of conduct, take the "seven red lines" of teachers' ethics in universities as the bottom line, and improve the long-term mechanism for teachers' ethics construction that combines education, publicity, assessment, supervision and rewards and punishments. To organize and carry out activities such as the promotion of teachers' ethics and deepening the education of academic integrity; to severely deal with teachers who engage in fraud, academic misconduct and other behaviors after verification in accordance with laws and regulations.

3. CONCLUSION

To sum up, in the background of building China into a great socialist country with Chinese characteristics in the new era, We should carry out ideological and political education solidly and effectively, put educating people first, put moral education first, cultivate people by virtue, and unswervingly adhere to the socialist direction of running schools. In the future, we should further strengthen and improve ideological and political education for all students, and train builders and successors of socialism who are well developed morally, intellectually, physically, aesthetically, and intellectually.
