ABSTRACT

The purpose of this study is to analyze the reactions of netizens to prank cases FD from the point of view of forensic linguistics. Research methods used in research "Forensic Linguistic View Regarding Warganet's Reaction To This Garbage Prank Case" is a qualitative descriptive research. Sources of data in this study are layer capture (screenshot) on the writings of netizens on social media Twitter, Instagram, Facebook, and Youtube comments column. Data collection in this study using the listening and note-taking technique. Data analysis was carried out by outlining the writings of the netizens are then analyzed related to the use of the language that associated with applicable laws. The results of this study show that the various comments of the netizens seemed to be cornering and did not give space for FP to be able to realize his mistake. Not everyone has a big heart dared to admit his mistake. FP tried to run away first before finally arrested.

Keywords: *warganet, prank, youtuber, forensic linguistics*

1. PRELIMINARY

Youtube is one of the platforms that is currently being favored by many public people. This website contains videos that can be accessed by anyone, can be accessed by anyone, and uploaded by anyone. Therefore, Youtube is one of the most profitable business opportunities worth a try. There have been many Youtubers circulating (calls for people who create content on Youtube) create various content of their creativity which is then uploaded to Youtube. In this global era, it is undeniable that every information provider platform has its advantages and disadvantages, Youtube is no exception. Lots of people whose use it for example to share their activities which are commonly called Vlogs, there are those who do business such as product advertisements and react to a product or also do a live stream that can directly interact with the audience and some various content such as music content, movies, the process of making something, using something or a review of a particular product or event.

For content creators, Youtube also provides benefits by providing a 'salary' because Youtube has collaborated with AdSense, which is an advertising cooperation program in Indonesia's social media hosted by Google. Account owner like Youtube or blogger that you can register an account on the

AdSense site first, after that the ads will appear installed on their account where the account owner will get income from every advertisements that are clicked by visitors to the site (pay per click (PPC)). Apart from that AdSense also provides revenue from searches on Google and also advertising referrals (referrals). For audience, various information can be accessed easily. Besides, there are many people who make videos with the same theme, so viewers can choose which videos liked and can be used as a reference.

Quoted from <https://www.Youtube.com/intl/id/about/> that Youtube has a mission to give everyone freedom of expression and show the world. There are four basic values determined by Youtube, namely freedom of expression, free domain formation, freedom to use opportunities, and freedom to have a placework. Of course, these various freedoms have content that is less acceptable by society. One of the content creators with the initials FP recently caused an uproar *warganet* (internet citizen) with the content he created on his Youtube Channel. Content it was uploaded on May 1, 2020 at around 01.30 WIB with the title "Prank Love "Food to Sissy CBL". It is known, now the video has been removed from the FP account. This Content makes Indonesian angry because FP's actions provide assistance to trans

women. Suddenly, content immediately went viral not long after it was uploaded. Netizens give a lot of ridicule and scorn.

After the video went viral, it turned out that FP ran away so he was included in the Search List People (DPO) by the police. Bandung Police Chief, Kombes Pol Ulung Sampurna Jaya quoted from <https://www.liputan6.com/> explained that his party will continue to search for his whereabouts about FP. Not long on the run, FP was arrested at the Merak Toll Road on Friday, 8 May 2020 early morning. FP was arrested without a fight to the police. Before being arrested, FP made a short video on Instagram on his instastory feature containing an apology but not serious. Wearing a pink long-sleeved shirt with a hood he said, "I personally apologize for my behavior... but it's a lie!". Automatically, this fake apology video was berated by netizens.

Netizens' comments varied. Some blaspheme, some give input to FP so as not to repeat his behavior. The blasphemous speech acts of netizens also not completely justified. Chaer [1] states that speech acts are an individual symptom, psychological in nature and its continuity is determined by the speaker's language ability in dealing with certain situations. Based on expert understanding - The expert concluded that utterances can have a bad effect on users' speech act itself. According to Leoni (in Sumarsono, and Paina Partama, 2010:329-330) speech acts are part of speech events, and speech events are part of speech events speech situation. Each speech event is limited to activities, or aspects of activities that directly governed by rules or norms for speakers.

This speech act in the form of Warganet's comments will be studied from a linguistic point of view forensics. Olsson [2] argues that forensic linguistics is a relationship between language, crime, and the law in it, including law enforcement, even disputes that have the potential to involve some violation of the law aimed at getting a legal solution. There are also things that are the main concern in linguistics forensics according to Coulthard [3] and Johnson [3] states that the main concern of forensic linguistics, namely (1) the language of legal documents; (2) the language of the enforcement police law; (3) interviews with vulnerable children or witnesses in the legal system; (4) interactions in the courtroom; (5) linguistic evidence and expert testimony in court; (6) authorship and plagiarism; and (7) forensic phonetics and speaker identification.

So, thing There are seven main concerns in forensic linguistics. Those seven things are interconnected with each other and cannot be separated Previous research that is relevant to this research is Dini's research Nuranjani [4] entitled "Controversy of Warganet's Speech on the Use of #Justiceforaudrey and #Audrey is also guilty in Bullying Case Based on Forensic Linguistic Approach". Based on the results of this study, there

are several forms of speech, including: forms of humiliation, defamation, provocation, spreading false news, and inciting form. Hate speech has an impact on exclusion, discrimination, violence, hatred of individuals and groups, and group hostility. Then, research conducted by Sriyanto [5] entitled "The Use of Language in Social Media "Forensic Linguistics Review: A Case Study of Language Use in Twitter". Results Research shows that the use of language in social media can be divided into: four categories. The four categories are as follows: (1) data that can be categorized as blasphemy or defamation, (2) data that can be categorized as slander, (3) data that can be categorized as minor insults, and (4) data that does not can be categorized as writing that violates the law.

Based on previous studies, the use of language in speech and writing penetrated into the realm of law. The rampant bullying is getting more and more enliven this research in the field of forensic linguistics. The aim of this research is to analyze the reactions of netizens to the FD prank case from a linguistic point of view forensics. Therefore, this research is entitled "A Forensic Linguistic View Regarding Reaction". Warganet Against Garbage Prank Cases".

2. RESEARCH METHODS

The research method used in the research "Forensic Linguistic View" Regarding Warganet's Reaction to the Garbage Prank Case, this is through research descriptive qualitative. The source of data in this study is the layer capture (screenshot). on the writings of netizens on social media Twitter, Instagram, Facebook, and the column Youtube comments. Data collection in this study used the listening and reading technique note. Data analysis was carried out by outlining the writings of netizens then an analysis is carried out related to the use of the language associated with current regulation. Validation of data using triangulation, namely with observing the same object in various situations. In this case, various instruments (test the results of presenting review texts, interviews, field notes and questionnaires) get the same information.

3. DISCUSSION

The data obtained from netizen comments related to this FP case were collected as many as 30 comment. Consists of 8 comments from one of the videos on the FP Youtube Channel entitled "In fact, so Kuproy" which was uploaded on April 23, 2020, the tweets of many netizens on Twitter were 5 comments, 4 netizens' Facebook posts, and comments on the account lambe turah about FP as much as 10 comments. Discussion of the contents of the comments will be carried out one by one according to the order of social media mentioned

above. The following is a discussion of these comments.

3.1 FP YouTube Channel

FP's YouTube Channel owns when this article was written on May 14, 2020 as many as 149 thousand subscribers with a total viewer of all videos of 9,433,984 time. Joined YouTube on November 26, 2019,

which is still relatively new. Channel it has the following description "Toxic humble and chill. my content contains all absurd things, so don't expect anything about education on this channel and if you don't understand or butter, it's okay, I'm really stupid h3h3". The following table is a discussion on each netizen comments at YouTube channel.

1	OS Speech	Semenjak kena kasus prenk yang komen pada banyak 🤔 ya ilahh ngapain Lo pada mampir kalaw mau ngehujat mah apah beda nya Lo sama dia sama*a gak punya otak emang 🤔
	Lingual maker	"gak punya otak emang"
2	NGC Speech	Woi sampah masyarakat, g punya otak lu. Situasi lagi kaya gini ngeprank lu g jelas, biadab kau anak muda
	Lingual maker	"g punya otak" dan "biadab kau"
3	N Speech	Mukaa" DAJALL LAKNATT
	Lingual maker	"Mukaa" DAJALL LAKNATT"
4	OFO Speech	Tolol nya kebangetan. Minta maaf saat udah menyesal. Kemaren kemaren kemana aja. Bukan mikir dulu sebelum buat konten. Apa itu cocok atau tidak durasi video nya?. Tangkap ajaa pak
	Lingual maker	"Tolol" dan "Tangkap ajaa pak"
5	KK Speech	Gw nunggu kabar baik dari ferdian Mati gantung diri gara" stres
	Lingual maker	"kabar baik dari ferdian, Mati gantung diri"
6	A2O Speech	Anak dangak !!! Otak lu geser jauh dari tempatnya
	Lingual maker	"Anak dangak"
7	AH Speech	BABI KAU SETAN, MANUSIA KURANG AJAR, ELUH LAHIR KAGA KAMAT APA, BORO" GUE MAU SUBSCRIBE CHANNEL LUHH, GA GUNA, ISENGIN WARGA GA BRSALAH, DASAR BABI ANJING KAUU..!!
	Lingual maker	"BABI KAU SETAN" dan "DASAR BABI ANJING KAUU"
8	IX Speech	Woy Jancok.... Lu jadi DPO ya?? lo sepertinya harus makan sampah dulu deh.. biar bisa ngerasain gimana jadi orang tapi gak di hargai...
	Lingual maker	"Jancok." dan "harus makan sampah dulu deh"

Table 1 Netizen Comments at Youtube Channel

The statements from the netizens with the initials OS, NCG, N, OFO, A2O, AH, and IX above can be subject to article on insult/ defamation with Article 45 paragraph 3 reads: Any person who knowingly and without rights distributes and/or transmit and/or make accessible Electronic Information and/or Electronic Documents containing insults and/or defamation as referred to in Article 27 paragraph (3) shall be punished with imprisonment of at most 4 (four) years and/or a maximum fine of Rp. 750,000,000.00 (seven hundred five tens of millions of rupiah).

Then, there were some netizen comments with the initials OFO, KK, and IX Linguistically signifies a provocative sentence. This is regulated in Article 28 Paragraph (2) The ITE Law regulates "Everyone intentionally and without rights disseminates information which is intended to cause hatred or hostility to individuals and or certain community groups based on ethnicity, religion, race, and intergroup (SARA)". The threat of violators of this article is a maximum imprisonment of 6 (six) years and/or a maximum fine of Rp. 1,000,000,000.00 (one billion rupiah). Then, there Also Article 156 of the

Criminal Code stipulates "Whoever publicly declares "feelings of hostility, hatred or condescension towards one or more ethnic groups Indonesia was sentenced to a maximum imprisonment of four years with a maximum fine of four thousand five hundred rupiah."

3.2 Twitter

Citizens' utterances on Twitter social media use the perpetrator's name hashtag. In addition, the hashtag has been trending

for a while on twitter some time ago to be precise in early 2020. The author is having trouble finding tweets from Indonesian citizens who use Indonesian as their primary language. This too signifies that the power of social media can jump-start news across various countries. Here are some examples of netizen comments regarding the case FP. The following table is some examples of netizen comments regarding the case FP.

1	F Speech	Kalau meninggal kayaknya akan tetep dicengin ya sama masyarakat... Semoga amal ibadahnya diterima... tapi boong
	Lingual maker	"Kalau meninggal kayaknya akan tetep dicengin" dan "Semoga amal ibadahnya diterima"
2	RG Speech	Si anjing. Masih sok relijius dan bermoral. @FP, you're the real definition of fucktard.
	Lingual maker	"Si anjing"
3	S Speech	Rest In Peace ndess #FP
	Lingual maker	"Rest In Peace ndess"
4	PHN Speech	..kcuali yg bangsat kek FP, penimbun masker, etc.. I'll show them no mercy. Sorry, I'm not a saint. I act accordingly.
	Lingual maker	"bangsat"
5	LZ Speech	Enjoy for watching, kata kalian! Membuat konten tak manusiawi dan meminta khalayak untuk menikmatinya???? Sungguh sungguh jahannam! Mati hati nurani kalian huhhhh Catat namanya :FD!
	Lingual maker	"Sungguh sungguh jahannam!"

Table 1 Netizen Comments at Twitter

4. CONCLUSION

The various netizen comments seem to be cornering and do not provide space to FP to be able to realize his mistake. Not everyone has a big heart right away dare to admit his mistakes. FP tried to run away first before finally arrested. Recently, there has even been a video circulating of FP hacking by senior detainees in prisons (jail). In cases like this, the perpetrator must have made a mistake. Quoted from <https://www.cnnindonesia.com/> that FP can be charged with Article 45 Paragraph 3 of the Law Information and Electronic Transaction (ITE) law. Head of West Java Police Public Relations

Commissioner Saptono Erlangga said that the disclosure of this case began with a report to the police on behalf of Ferdi Hermawan with the time of the incident on May 1, 2020 at 02.00 WIB.
