All of the articles in this proceedings volume have been presented at the [UPINCESS] during [Wednesday, 15 June, 2022] in [Yogyakarta, Indonesia, Virtual Conference]. These articles have been peer reviewed by the members of the [UPINCESS Reviewers] and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

1 Review Procedure

The article acceptance system is carried out through an international web seminar, namely on the <http://upinCESS.upy.ac.id> page. Articles submitted must follow the format (template) provided. The terms of article submission are as follows.

- 1) Articles submitted must be free from elements of plagiarism.
- 2) Articles submitted are works that have never been published in other media.
- 3) Articles submitted are in accordance with the predetermined scope of the Seminar.

This selection process is carried out by the editor by taking into account the suitability of the scientific field between the article and the editor. So that each article is selected by people who are experts in their fields. This is so that the articles that pass are articles that are really good and of good quality according to their respective scientific fields. Articles that are declared to have passed according to predetermined criteria, are then distributed to reviewers for input and improvement. Reviewers conduct a review process on submitted articles according to their field of expertise. Reviewers only provide suggestions and input to the editor whether the article deserves to be published or not. If it is not feasible then it needs to be revised by the author. The review process is carried out using a single blind review process system. That is a review process carried out where the author does not know who the reviewer has reviewed the article. While the Reviewer knows the name and affiliation of the author. The explanation of the paper acceptance system is presented in Fig. 1.

2 Quality Criteria

Articles submitted must follow the format (template) provided. The terms of article submission are as follows.

A. Kusuma Wardana—Editors-in-Chief of the [UPINCESS].

3 Key Metrics

Total submissions	61
Number of articles sent for peer review	55
Number of accepted articles	40
Acceptance rate	65.5%
Number of reviewers	10

[Any additional information about article statistics belongs to this section, but the listing should suffice in most situations. More rows can be added if necessary, but please do not delete any existing row. Numbers are for example only. "Acceptance rate" is (number of accepted articles) divided by (number of total submissions).]

4 Competing Interests
