All of the articles in this proceedings volume have been presented at the *The 3rd International Conference on Cardiovascular Diseases (ICCV2021)* during 23–24 oct 2021 in [Yogyakarta, Indonesia]. These articles have been peer reviewed by the members of the Scientific Committee and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

## 1 Review Procedure

The reviews were *single-blind review*. Each submission was examined by *at least 2* reviewer(s) independently.

*The conference submission management system was Easychair*. The submissions were first screened for generic quality and suitability. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, taking into account any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments. [The acceptance or rejection of a revised manuscript was final.]

## 2 Quality Criteria

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions:

1. Pertinence of the article's content to the scope and themes of the conference;
2. Clear demonstration of originality, novelty, and timeliness of the research;
3. Soundness of the methods, analyses, and results;
4. Adherence to the ethical standards and codes of conduct relevant to the research field;
5. Clarity, cohesion, and accuracy in language and other modes of expression, including figures and tables.

In addition, all of the articles have been checked for textual overlap in an effort to detect possible signs of plagiarism by the publisher.

H. Nurdianto—Editors-in-Chief of the The 3rd International Conference on Cardiovascular Diseases.

### 3 Key Metrics

Total submissions	112
Number of articles sent for peer review	98
Number of accepted articles	52
Acceptance rate	61%
Number of reviewers	28

### 4 Competing Interests

Neither the Editor-in-Chief nor any member of the Scientific Committee declares any competing interest. Some of the authors were supervised by the Editor-in-Chief, who has recused herself from handling their submissions and has delegated them to colleagues with no personal interests in them. The conference was partially funded by Acme, Inc., a company that has also supported or participated in some of the research submitted to the conference. All authors and reviewers are required to disclose their funding sources, and those research works that were funded by Acme have been reviewed by members of the Scientific Committee with no personal interests in the company.
