All of the articles in this proceedings volume have been presented at the 1st Nusa Tenggara International Conference on Chemistry during 28th to 29th of July 2022 in Mataram, Indonesia. These articles have been peer reviewed by the reviewers and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

1 Review Procedure

The reviews were double-blind. Each submission was examined by at least 2 reviewers independently.

The submissions were first screened for generic quality and suitableness based on the conference theme. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, taking into account any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments. The acceptance or rejection of a revised manuscript was final.

2 Quality Criteria

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions:

- 1. Pertinence of the article's content to the scope and themes of the conference;
- 2. Clear demonstration of originality, novelty, and timeliness of the research;
- 3. Soundness of the methods, analyses, and results;
- 4. Adherence to the ethical standards and codes of conduct relevant to the research field;

S. Hadisaputra—Editor-in-Chief of the 1st NiTRIC 2022.

- 2 S. Hadisaputra et al.
- Clarity, cohesion, and accuracy in language and other modes of expression, including figures and tables.

In addition, all of the articles have been checked for textual overlap in an effort to detect possible signs of plagiarism by the publisher.

3 Key Metrics

Total submissions	65
Number of articles sent for peer	39
review	
Number of accepted articles	20
Acceptance rate	51.3%
Number of reviewers	10

Competing Interests. We would like to declare that neither the Editor-in-Chief nor any member of the committee have any competing interest.
