All of the articles in this proceedings volume have been presented at the ICORCOM 2021 during 25 August 2021 in Jakarta. These articles have been peer reviewed by the members of the Reviewers Team and Scientific Committee and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

1 Review Procedure

The reviews were Double Blind Review and the organiser firm that the authors and reviewers are not form the same institution. Each submission was examined by 2 reviewer(s) independently.

The submissions were first screened for generic quality and suitability. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, taking into account any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments. The acceptance or rejection of a revised manuscript was final.

2 Quality Criteria

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions.

The submitted abstract will be reviewed whether it fits the theme or not by two reviewers. Abstracts that fits the theme will be asked to send the full paper for further processing and make presentation in the conference. Beside input from the discussion in the conference, the review process for the full paper was also carried out by two reviewers who would judge the substance of the manuscript.

All existing processes will be carried out by double blind review, except the discussion in their presentation.

O. Purnamasari—Editors-in-Chief of the ICORCOM 2021.

In addition, all of the articles have been checked for textual overlap in an effort to detect possible signs of plagiarism by the publisher. We use Turnitin to check the similarity index.

3 Key Metrics

Total submissions	89
Number of articles sent for peer review	60
Number of accepted articles	28
Acceptance rate	46.67%
Number of reviewers	10

Competing Interests. Neither the Editor-in-Chief nor any member of the Scientific Committee declares any competing interest.

No authors were supervised by the Editor-in-Chief or Scientific Committee, who has recused herself from handling their submissions and has delegated them to colleagues with no personal interests in them.

The conference was fully funded by Universitas Muhammadiyah Jakarta. All authors and reviewers are required to disclose their funding sources.
