All of the articles in this proceedings volume have been presented at the 2nd International Conference of Health Innovation, and during October 29th–30th 2022 in Blended, offline at Swiss Belinn, Surabaya, Indonesia and online using Zoom Meeting Online platform. These articles have been peer reviewed by the members of the Scientific Committee and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference’s review process.

1 Review Procedure

The reviews were Main editor peer review Each submission was examined by two (2) reviewer(s) independently. The conference submission uses online management system. The submissions were first screened for generic quality and suitability. After the initial screening, they were sent for peer review by matching each paper’s topic with the reviewers’ expertise, considering any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers’ comments. The acceptance or rejection of a revised manuscript was final. In further the peer review of the review procedure also undertake for discuss the editorial, material unconscious bias.

2 Quality Criteria

1. Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions Pertinence of the article’s content to the scope and themes of the conference focused on the “New Era in Health Care: Challenge, Change and Innovation Technology” with Scope:
