All of the articles in this proceedings volume have been presented at *The 3rd International Conference on Education and Technology (ICETECH 2022)* during *October 26–27, 2022* in *Madiun*. These articles have been peer reviewed by the members of the *Scientific Committee* and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

1 Review Procedure

The reviews were *single-blind*. Each submission was examined by *at least 2* reviewers independently.

The conference submission management system was Open Conference Systems 2.3.6.0, which is open source conference management software developed, supported, and freely distributed by the Public Knowledge Project under the GNU General Public License.

The submissions were first screened for generic quality and suitableness. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, taking into account any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments. The acceptance or rejection of a revised manuscript was final.

2 Quality Criteria

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions*:*

1. Pertinence of the article's content to the scope and themes of the conference;
2. Clear demonstration of originality, novelty, and timeliness of the research;
3. Soundness of the methods, analyses, and results;
4. Adherence to the ethical standards and codes of conduct relevant to the research field;

D. A. Nugraha—Editosr-in-Chief of the ICETECH 2022.

5. Clarity, cohesion, and accuracy in language and other modes of expression, including figures and tables.

In addition, all of the articles have been checked for textual overlap in an effort to detect possible signs of plagiarism by the publisher. *All accepted manuscripts must be original and free from plagiarism. The manuscript have been checked by using Turnitin before published.*

3   Key Metrics

Total submissions	138
Number of articles sent for peer review	127
Number of accepted articles	76
Acceptance rate	59.8%
Number of reviewers	12

Competing Interests.   Neither the Editor-in-Chief nor any member of the Scientific Committee declares any competing interest.
