All of the articles in this proceedings volume have been presented at the *ICDNR 2023* during *September 23rd – 24th, 2023* in *Surakarta, Indonesia*. These articles have been peer reviewed by the members of the *Journal and Publication Chair* and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

1 REVIEW PROCEDURE

The reviews were *double-blind review*. Each submission was examined by *at least 2* reviewers independently.

The conference submission management system was EasyChair. Authors must submit their papers through easy-chair. Please note that we don't accept submission by email.

The submissions were first screened for generic quality and suitability. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, taking into account any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments. The acceptance or rejection of a revised manuscript was final.

2 QUALITY CRITERIA

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions Pertinence of the article's content to the scope and themes of the conference;

1. Clear demonstration of originality, novelty, and timeliness of the research;
2. Soundness of the methods, analyses, and results;
3. Adherence to the ethical standards and codes of conduct relevant to the research field;
4. Clarity, cohesion, and accuracy in language and other modes of expression, including figures and tables.

W. Waluyo—Editors-in-Chief of the ICDNR 2023.
