All of the articles in this proceedings volume have been presented at the 2nd Semarang International Conference on Counseling and Educational Psychology during on date 29 August 2023 in Dafam Hotel Semarang City. These articles have been peer reviewed by the members of the Scientific Committee and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

1 REVIEW PROCEDURE

The reviews were single-blind. Each submission was examined by 2 reviewers independently. For conference submission system, we are use Universitas Negeri Semarang conference management system.

The article has been review through several stages. The submissions were first screened for generic quality and suitability. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, taking into account any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments. The acceptance or rejection of a revised manuscript was final.

In the review process, we make several efforts to ensure the article quality. First, reviewers are prohibited from reviewing articles that have a close relationship with the author. Second, reviewers only review articles that match their expertise.

2 QUALITY CRITERIA

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions.

1. Pertinence of the article's content to the scope and themes of the conference;
2. Clear demonstration of originality, novelty, and timeliness of the research;
3. Soundness of the methods, analyses, and results;
4. Adherence to the ethical standards and codes of conduct relevant to the research field;
5. Clarity, cohesion, and accuracy in language and other modes of expression, including figures and tables.
