All of the articles in this proceedings volume have been presented at the Southeast Asia Conference on Migration and Development during 19th to 21st September in Lombok Astoria Hotel, Mataram, West Nusa Tenggara, Indonesia. These articles have been peer reviewed by the members of the Board of Reviewers and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

1. REVIEW PROCEDURE

The submissions were first screened for generic quality and suitability. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, taking into account any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments. The acceptance or rejection of a revised manuscript was final.

To avoid subjective reviews, we hide all the name's authors, institution or affiliation, email, etc. before we send it to the reviewers. The reviewers will only receive the blind papers without any information of the author included.
