All of the articles in this proceedings volume have been presented at the ICMD2022 during 13th to 15th September 2022 in Harrachov. These articles have been peer reviewed by the members of the Scientific Committee and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

## 1. REVIEW PROCEDURE

The reviews were single-blind. Each submission was examined by 2 reviewers independently.

The reviews were single-blind. Each submission was examined by 2 reviewers independently. The first assessment has been carried out during registering for the conference, contributions were evaluated based on the title and abstract. If the abstract was not evaluated as thematically appropriate for the conference, the registration was rejected and the manuscript was not sent.

After the accepted registrations the submissions were first screened for generic quality and suitability. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, considering any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers. Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments.

## 2. QUALITY CRITERIA

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions:

1. Originality
2. Contribution to The Field
3. Technical Quality
4. Clarity of Presentation

2 M. Petr et al.

5. Depth of Research
6. Manuscript's structure according to the Instruction to the authors
7. Appropriate references
