All of the articles in this proceedings volume have been presented at the International Conference on Contemporary Sociology and Educational Transformation (2nd ICCSET) on 5th August 2025 in Universitas Negeri Malang, Indonesia. These articles have been peer reviewed by the members of the Scientific Committee and reviewers, and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

1. REVIEW PROCEDURE

The reviews were single-blind. Each submission was examined by at least one reviewer independently.

The submissions were first screened for generic quality and suitability. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, taking into account any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments. The acceptance or rejection of a revised manuscript was final.

To improve the quality of peer review, reviewers were recused from handling any papers where a conflict of interest could arise, particularly in cases where they had personal relationship with the authors. This step ensures that no bias, intentional or otherwise, affected the fair evaluation of the submitted work.

2. QUALITY CRITERIA

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions:

1. Pertinence of the article's content to the scope and themes of the conference;
2. Clear demonstration of originality, novelty, and timeliness of the research;

3. Soundness of the methods, analyses, and results;
4. Adherence to the ethical standards and codes of conduct relevant to the research field;
5. Clarity, cohesion, and accuracy in language and other modes of expression, including figures and tables.

In addition, all of the articles have been checked for textual overlap in an effort to detect possible signs of plagiarism by the publisher. Each paper was screened for plagiarism by using Turnitin software with maximum 20% of similarity index.

3. KEY METRICS

<i>Total submissions</i>	28
<i>Number of articles sent for peer review</i>	25
<i>Number of accepted articles</i>	19
<i>Acceptance rate</i>	76%
<i>Number of reviewers</i>	10

4. COMPETING INTERESTS

Neither the Editor-in-Chief nor any member of the Scientific Committee declares any competing interest.
